1 | INTRODUCTION

BTS Group’s Sustainability Department is responsible for overseeing stakeholder engagement in BTS Group’s operations.

The Sustainability Department conducts materiality assessment survey as well as community engagement survey annually to understand overall stakeholders’ opinions in relation to ESG issues and to identify local community with any socio-economic needs which BTS Group believes that we could contribute and provide support to improve their living conditions in terms of good health and well-being.

The targeted communities and engaged activities, advised by local operations’ top managers, are endorsed and reviewed by the Chairman and the Sustainability Committee on a yearly basis in the Sustainability Committee meeting. Local operations’ top managers provide coordination between the Sustainability Department and the local communities.

Sustainability Department employees as

well as employees of our main operating business rail mass transit employees in every level, particularly management level, regularly receives training on community development, stakeholder engagement and how to response the community’s needs. The agenda of the training includes Introduction to stakeholder engagement, what is stakeholder and community engagement, the foundations for quality stakeholder engagement practice and case studies.

For more details, please read [BTS Group’s Stakeholder Engagement Policy](#).

2 | ENGAGEMENT PROCESS

BTS Group stakeholder mapping is a collaborative process of research and discussion that draws from multiple perspectives to determine a key list of stakeholders across the entire stakeholder spectrum. Mapping can be broken down into four phases:

- 1) Identification: listing relevant groups, organisations and people
- 2) Analysis: understanding stakeholder interests and influence on the business
- 3) Prioritisation: prioritising stakeholder groups in order of importance
- 4) Planning: planning engagement strategy and communications plan

Note: results of each phase may be different for each operational area

2.1 | STAKEHOLDER IDENTIFICATION

BTS Group focuses on the importance and power of stakeholders, respects their rights, and conducts towards the stakeholder with fairness and transparency.

Stakeholders include people who can affect or are affected by BTS Group’s business operations. They can be internal or external, as well as those are interested in our businesses. BTS Group has defined, identified and analysed stakeholders as 7 categories of people and entities.

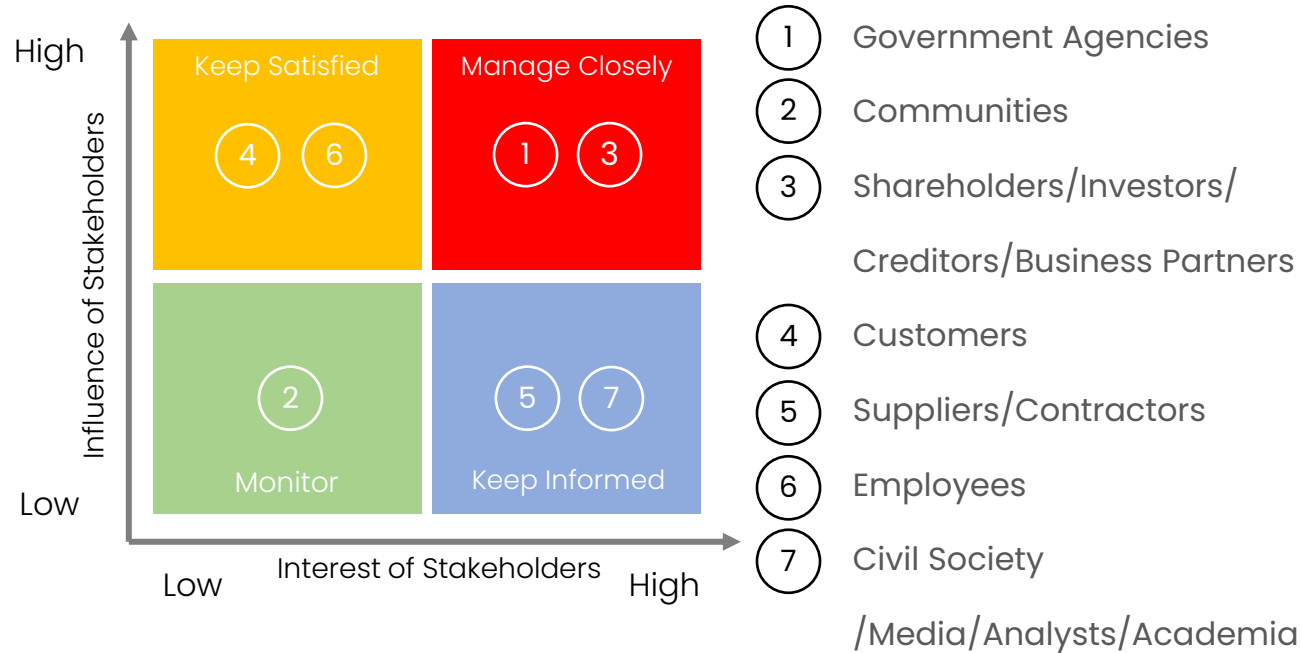

2.2 | STAKEHOLDER ANALYSIS

From the identified stakeholder groups, BTS Group has analysed stakeholders based on their interest in the impact of our business on finance, environment, business ethics, regulatory compliance, reputation, and accidents & safety. The results are shown in the table below:

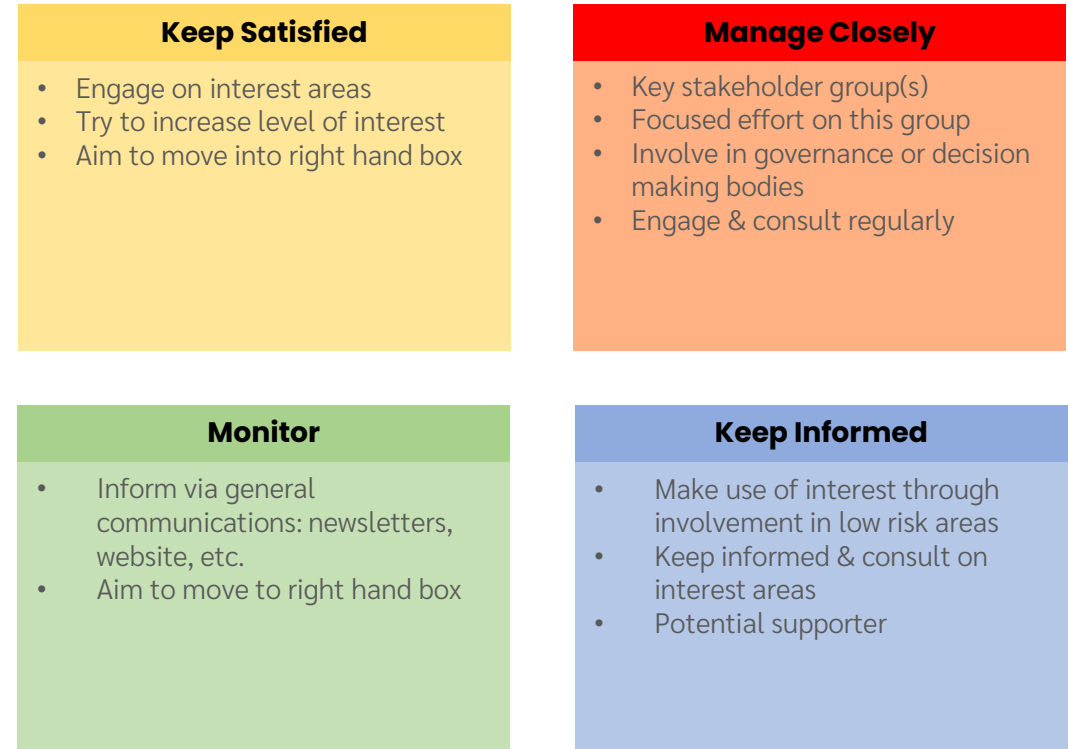

Stakeholder Group	Interested in impact on:					
	Finance	Environment	Business ethics	Regulatory compliance	Reputation	Accidents & safety
Government agencies	✓	✓	✓	✓	✓	✓
Communities		✓		✓		✓
Shareholders, investors, creditors, business partners	✓		✓	✓	✓	
Customers	✓					✓
Suppliers, contractors	✓				✓	✓
Employees	✓		✓	✓	✓	✓
Civil society, media analysts, academia	✓	✓	✓	✓	✓	✓

2.3 | STAKEHOLDER PRIORITISATION

From the identified stakeholder groups, BTS Group has analysed stakeholders based on their impact and influence on the business as well as their interest in the impact of our business. The results are mapped the matrix below:

Engagement Strategy

3 | IMPLEMENTATION

3.1 | YELLOW LINE

The Yellow Line is Thailand’s first monorail line, which was officially opened on 3 July 2023. The Yellow Line connects Lad Prao and Samrong, the eastern and southern suburbs of Bangkok, and runs a total of 23 stations and 30.4 km.

As the Yellow Line runs through many large and important suburbs, BTS Group aims to find out the impact of the Yellow Line on the surrounding operational areas and engage the most relevant stakeholders.

An important suburb that the Yellow Line runs through is the Bang Kapi suburb in the Bang Kapi district. It is estimated that up to 50,000 residents live in or near the suburb. YL09 Yaek Lam Sali station is centrally located in the suburb, next to the Ramkamhaeng Road and Srinakarin Road intersection. Hence, this station was selected to study the impact of the Yellow Line operations on nearby stakeholders.

A 1 km radius is drawn from the station to identify important stakeholder locations, of which 2 were selected for further implementation of BTS Group’s engagement plan. These 2 locations correspond to 2 high priority stakeholder groups:

1. Bang Kapi District Office – Government Agencies

The government is interested in the environmental impact and mitigating actions of BTS Group.

2. Hua Mak Wittayanusorn School – Communities

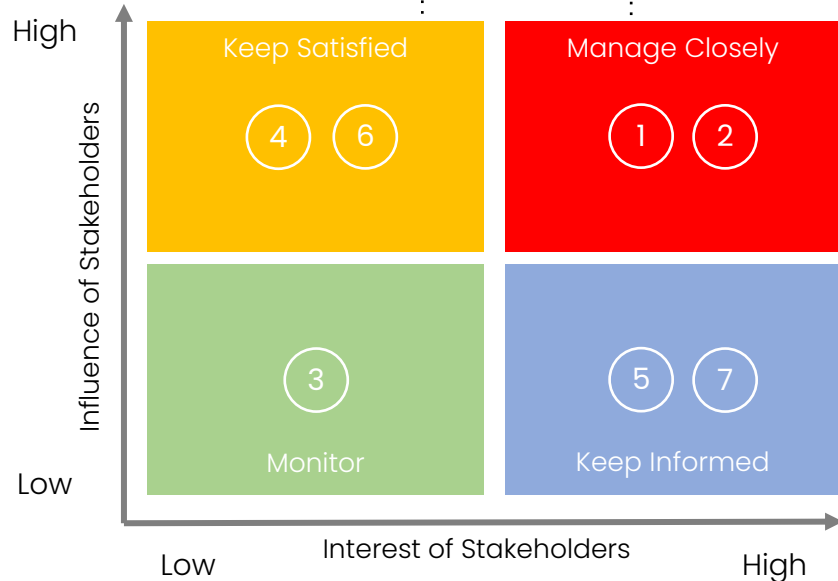

The school’s director, Mr. Sommai Malison, comes from a large family that has a long history within the district. The family holds a large influence among the community.

Engagement with the community: Hua Mak Wittayanusorn School

To create engagement and awareness, BTS Group in collaboration BTSC and EBM held the “Yellow Line: Moving Happiness” event for schoolchildren at Hua Mak Wittayanusorn School. The event aimed to educate on how to ride the Yellow Line correctly and safely, as well as the environmental benefit of riding the Yellow Line. The event was opened by Mr. Rachit Rugsasat, Maintenance Director at EBM and Mr. Sommai Malison, Director at Hua Mak Wittayanusorn School.

A total of 110 schoolchildren from Grade 4 to Grade 6 attended the event, which includes educational activities and games, and experiencing riding on the Yellow Line firsthand.

3.2 | PINK LINE

The Pink Line is Thailand's second monorail line, which was officially opened on 18 December 2023. The Pink Line connects Nonthaburi and Min Buri, the western and eastern suburbs of Bangkok, and runs a total of 32 stations and 35 km.

As the Pink Line runs through many large and important suburbs, BTS Group aims to find out the impact of the Pink Line on the surrounding operational areas and engage the most relevant stakeholders.

An important suburb that the Pink Line runs through is the Pak Kret suburb in Pak Kret district. It is estimated that up to 200,000 residents live in or near the suburb. PK06 Yaek Pak Kret station is centrally located in the suburb, next to the Chaengwattana Road and Tiwanon Road intersection. Hence, this station was selected to study the impact of the Pink Line operations on nearby stakeholders.

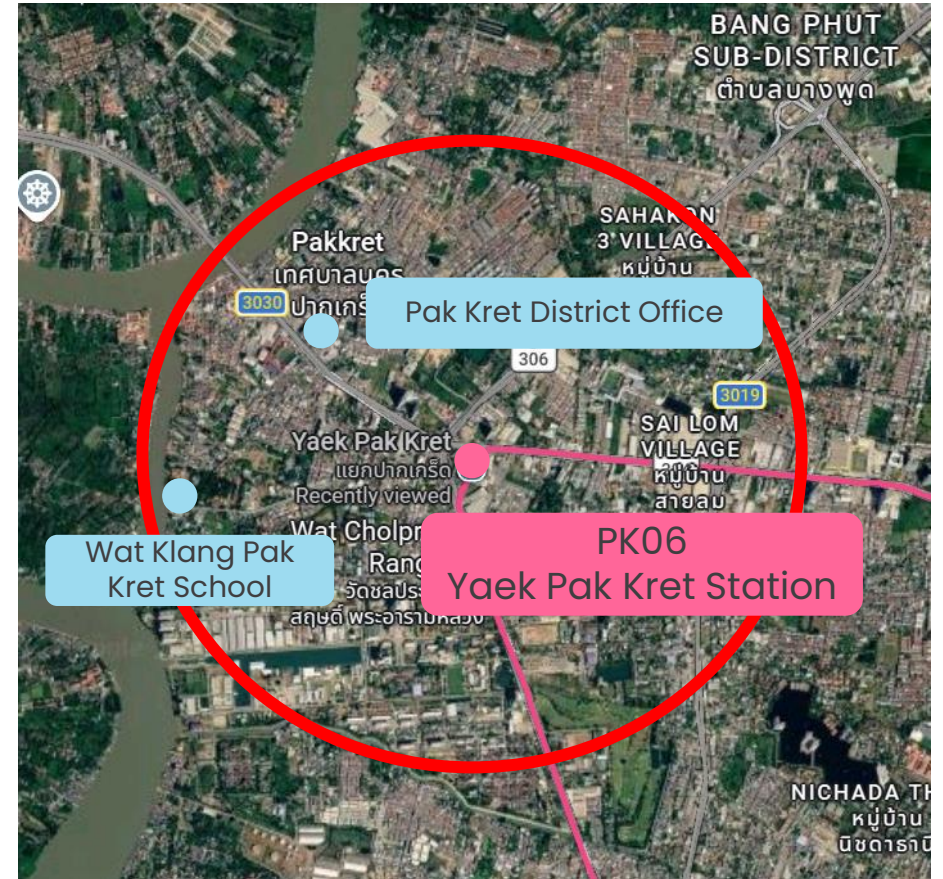

A 1.5 km radius is drawn from the station to identify important stakeholder locations, of which 2 were selected for further implementation of BTS Group's engagement plan. These 2 locations correspond to 2 high priority stakeholder groups:

1. Pak Kret District Office – Government Agencies

The government is interested in the environmental impact and mitigating actions of BTS Group.

2. Wat Klang Pak Kret School – Communities

The school is a large school in affiliation with the nearby Wat Klang Kret temple. Many students within the Pak Kret district enrolls in this school.

Engagement with the community: Wat Klang Pak Kret School

To create engagement and awareness, BTS Group in collaboration BTSC and NBM executives and employees held the “Pink Line: Delivering Happiness” event for schoolchildren at Wat Klang Pak Kret School. The event was led by Mr. Thawatchai Panitchayakorn, Operations Director at NBM and Ms. Suntree Boonphralak, Director of Wat Klang Pak Kret School.

Activities of the event included: donating educational equipment to the school, organizing recreational and educational activities about railway equipment and safe usage of the train system, CPR and AED training, repainting playground equipment and school building walls, installing a futsal court, and giving out ice cream to more than 200 teachers and students.

Engagement with government agencies: TGO

BTS Group participated in the Thailand Voluntary Emission Reduction Program (T-VER), and received a Carbon Neutral certificate from the Thai Government’s Thailand Greenhouse Gas Organisation (TGO) a government agency.

BTS Group implemented a carbon-offsetting scheme by joining a carbon credit program in collaboration with Mitr Phol Bio-Power aiming to drives Thailand towards the status of Low-Carbon Economy, enabling Thai Government to achieve its nationally determined contribution to reduce greenhouse gases in accordance with the Paris Climate Agreement. BTS Group provides financial support to be utilised by Mitr Phol to buy sugar cane leaves and rice straws (waste)

from the farmers at a price which helps deter farmers from burning the by product from harvesting and causing further adverse environmental damage. From this collaboration, BTS Group became the first and only rail carbon neutral transportation company in Thailand.

In addition, BTS Group is part of the Thailand Carbon Neutral Network and Climate Action Leading Organisation networks founded by TGO.

4 | MEASUREMENT AND PERFORMANCE

BTS Group focuses on the importance and power of stakeholders, respects their rights, and conducts towards the stakeholder with fairness and transparency. BTS Group has formulated customised methods of participation, engagement channels, and disclosure of information, which meet particular needs to these different categories, in order to acknowledge and understand and suit their interests and expectations, as well as use feedback during decision making process and in our operations.

BTS Group recognises the role and responsibility of contribution to community, authorities, media, associations and NGOs, at the local operating level of BTS Group.

Our Objectives:

1. To enhance the good corporate image, reputation and accountability of BTS Group in local operating sites, aiming to grant Licenses to Operate when the Group expands its investment to other Mass Transit Routes according to government plans
2. Support of local stakeholder helps reduce and mitigate negative feedback and impacts toward the BTS Group
3. To promote ridership of BTS SkyTrain on the route where the activity to be held. This also directly and indirectly affects the business in terms of ridership volume

Our Key SDG Focus Areas:

Our Key Performance Indicators:

1. Community Satisfaction

2. Social Cohesion Within Communities

Indicator 1: Community Satisfaction

Objective: To measure and evaluate the performance of BTS Group’s community development projects and activities

Methodology: BTS Group has conducted a quantitative research methodology on the satisfaction of communities in Bangkok and metropolitan along the BTS SkyTrain routes, which was conducted in 2019/20. The research tool is a questionnaire for interviewing people in communities in Bangkok and metropolitan along the BTS SkyTrain routes in the radius of 1 km from each station.

As of June 2020, the total number of survey respondents was 2,726 people covering 52 current stations. It was found that 72.60% of people responding to the survey were satisfied, which is higher than the set target at 70%.

Indicator 2: Social Cohesion Within Communities

Objective: To increase sense of social participation and voluntary to local communities and society

Methodology: BTS Group, joined hands with relevant government agencies under the governance of the Bangkok Metropolitan and Administration (BMA), and associations, to create social cohesion within communities. BTS Group realises that motorcycle taxi riders play important role to enhance connection between BTS Group and communities. Therefore, we encourage and train the licensed motorcycle taxi riders along the BTS SkyTrain routes to be Agent of Security Surveillance for BTS passenger, communities, and public society.

According to the survey conducted in 2019/20 and information review in 2020/21, there were 110 motorcycle taxi stations consisted of 3,269 motorcycle taxi riders along the 35 BTS stations.

Currently, more than 1,500 licensed motorcycle taxi riders covering 20 BTS Stations participating to be our network. Increasing number of participated motorcycle taxi riders is the key indicator to measure the success of the program.

5 | EVALUATION AND LESSON LEARNED

BTS Group realises the importance to enhance good communication, experiences and relationship among the Group, business partners, government agencies and communities along our serviced routes who may be impacted from our operations for a cohesive community.

We learned the needs of local stakeholders from the engagement with them. Therefore, we have set up the Give Away Project, in collaboration with various agencies, both government, private and various groups of people, to relief suffering of people in this difficult time. The project distributed 40,000 “Give Away” Boxes, worth over THB 26 million to 20,000 households along the BTS SkyTrain routes in Bangkok and metropolitan area, affected by the COVID-19.

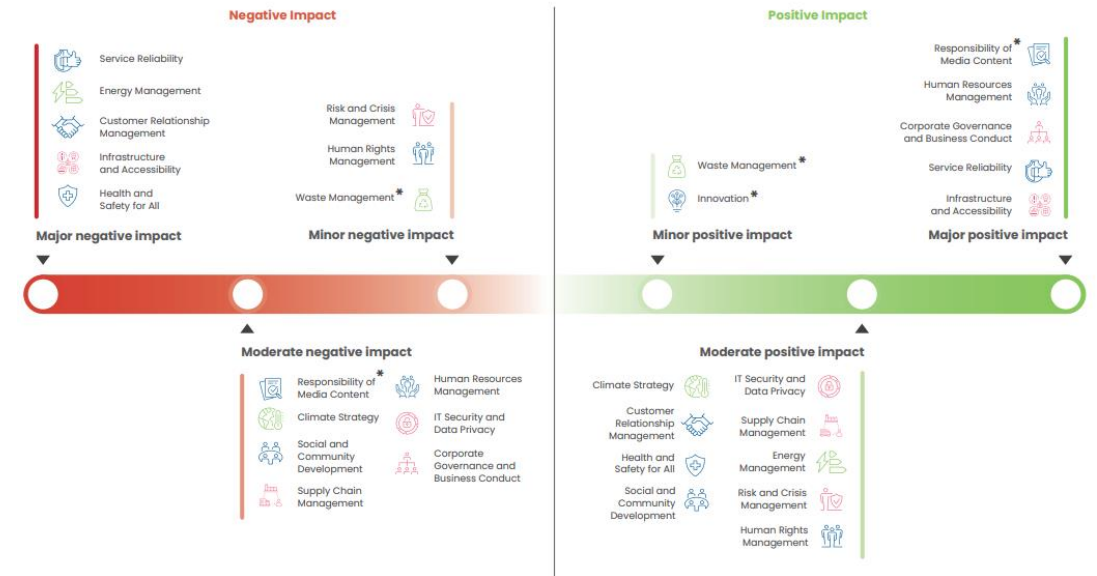

BTS Group has coordinated with motorcycle-taxi riders along the BTS SkyTrain routes, to help them earn more income by collecting information of potential affected people and households for the “Give Away” Box Project, then distributed the boxes to target people by delivery service of Kerry Express, which is one of our affiliates.

In all stakeholder engagement activities, BTS Group regularly takes feedback from stakeholders and conducts internal debriefing session. The process helps us continuously evolve plans and addresses

mistakes from previous engagement activities.

Where applicable, the lessons learnt are shared among relevant functions through meetings, training and road shows. We systematically keeps record of issues of concern and stakeholder interest in our shared spaces accessible for authorised people.

Every year, during our materiality assessment process, we use the data as input to identify material topics to ensure that stakeholder concern and interests are taken care of.

Evaluation Process

After each engagement session, the team is required to follow the process:

Debriefing process

Dissemination of lessons learned

Annual Materiality Assessment

- Recap the goals of the engagement
- Review whether the goals have been achieved
- Review the process: what is good and effective? What could be improved?
- Future planning
- Trainings
- Meetings
- Road shows
- Centralised data through intranet site accessible by authorised functions/personnel
- Topics identified during the engagements are input into the annual materiality assessment process

Lesson Learned Through Company Intranet

These are shared within the Company's INTRANET and the BTS Group INSIGHT newsletter. Below is an example from Yellow Line activities:

6 | COMPLAINT CHANNELS

The Company provides accessible channels for all stakeholders to submit inquiries, concerns, or complaints directly to the Board of Directors through the Company Secretary Office. These channels are available across the BTS rail network, including the Green, Gold, Yellow, and Pink Lines, ensuring that stakeholders in communities and operational areas served by the Group have a consistent mechanism to raise concerns and provide feedback. All submissions are reviewed and managed in accordance with the Company's grievance handling procedures.
